

CHEMICAL TOILET ADDITIVE - C396

Additive for chemical and recirculating toilet systems

CHEMICAL TOILET ADDITIVE contains a blend of concentrated biocides, surfactants and fragrance to deodorise and help liquefy wastes in chemical toilet systems.

FEATURES

- A highly concentrated, economical additive for chemical toilets designed to deodorise wastes and freshen toilet areas.
- Helps to keep waste liquefied, preventing blockages and enhancing flow.
- Pleasant fragrance masks foul odours.
- Blue colour masks the appearance of waste.

APPLICATIONS

Developed for use in chemical toilet systems in boats, buses, caravans, camping sites, outdoor events and on building and construction sites.

DIRECTIONS FOR USE

Dilute into the chemical toilet reservoir at a rate of 100mls of concentrate per 20 litres of tank capacity. Due to intense colour take care to avoid spilling and wipe up spills immediately with a damp cloth.

TECHNICAL DATA

APPEARANCE : Liquid

COLOUR : Deep blue

ODOUR : Pleasant vanilla

SOLUBILITY : Completely soluble in water

RELATIVE DENSITY : 1.00

pH-VALUE, CONC. SOLUTION : 7.5

PACK SIZE : 5 litre

USAGE PRECAUTIONS

Avoid spilling, skin and eye contact.

STORAGE PRECAUTIONS

Store upright in container provided away from thoroughfares to prevent accidental damage. Keep between 0 and 40°C.

HEALTH AND SAFETY

Health and Safety Data sheet available separately.
