

C925 CITRISOL HD

Heavy Duty Emulsifiable Citrus Solvent Degreaser.

CITRISOL HD is an exceptionally powerful degreaser combining a highly active blend of natural orange oils, solvents and emulsifiers designed to clear rapidly the heaviest hydrocarbon oils and grease from plant, machinery, components and assemblies. Citrisol HD's powerful solvents penetrate hardened oils, greases and bitumen. The added emulsifiers enable the soil to be easily washed away with water, leaving a surface clean and oil free. Citrisol HD will also liquefy grease and fat deposits in drains, clearing away waste deposits and restoring flow.

FEATURES

- Contains a powerful blend of natural orange oils and petroleum distillates to provide rapid penetration and removal of even the heaviest oil and grease deposits.
- Specialised emulsifiers allow residues to be washed off with water leaving a clean oil free finish.
- Clears fat and grease deposits from drains, preventing blockages and maintains optimum flow.
- Pleasant citrus fragrance.

APPLICATIONS

- Degreasing of production parts and components in dip tank or parts washers.
- Degreasing of machinery and components prior to service, maintenance or inspection.
- Removal of temporary protective coatings and waxes from components.
- Removal of tar, oil and grease from engines, heavy plant and equipment.
- Removal of fat and grease deposits from drains.

DIRECTIONS FOR USE

Apply manually by brushing or using a low-pressure hand-sprayer. Allow a few minutes for the product to soften and remove oil and grease residues. Stubborn deposits may be agitated with a brush. Rinsing is not always necessary but is recommended during preparation for painting or where heavy deposits need removal.

Drains: May be drip-fed into drains to help maintain flow.

TECHNICAL DATA

APPEARANCE	:	Liquid
COLOUR	:	Straw
ODOUR	:	Citrus
SOLUBILITY	:	Forms an emulsion with water.
RELATIVE DENSITY	:	0.83
FLASH POINT (°C)	:	58 P-M (Pensky-Martens)
VOC CONTENT	:	730 g/l
PACK SIZE	:	(4 x 5) litres

USAGE PRECAUTIONS

Keep away from heat, sparks and open flame.

STORAGE PRECAUTIONS

Flammable/combustible - Keep away from heat and flames. Store in closed original container at temperatures between 5°C and 30°C.

STORAGE CLASS

Flammable liquid storage.

HEALTH AND SAFETY

Health and Safety Data sheet available separately.
