

UNIVERSAL DE-ICER - C122

A glycol based de-icing/snow removal product for general purpose use

UNIVERSAL DE-ICER is a fast acting de-icing solution designed for spray application to rapidly remove ice and snow residues from equipment, point switchgear etc in the rail industry. This product complies with the requirements of the 97/633/1 specification.

FEATURES

- Liquid formula for convenient spray application.
- Complies with 97/633/1.
- Contains corrosion inhibitors to prevent corrosion of steel, copper, aluminium and cadmium plated steel.
- Will not cause corrosion or damage to point motors, clamp locks, rails, chains, rail fastenings or conduits.
- Will not adversely effect insulation of signal or telecommunications cables.
- Not classified as flammable.

APPLICATIONS

Snow and ice removal from point switchgear and equipment in the rail industry.

DIRECTIONS FOR USE

Apply undiluted by spray in accordance with standard operating procedures to clear snow and ice. In cold dry conditions application will prevent frost formation for a minimum of 3 hours.

TECHNICAL DATA

APPEARANCE : Liquid
COLOUR : Colourless
ODOUR : Mild glycol
SOLUBILITY : Completely soluble in water
RELATIVE DENSITY : 1.08
pH : 8.0
PACK SIZES : 25 litre, 1,000 litre IBC

APPROVALS

Rail Cat No: 007/025043 (25 litre)
Network Rail Acceptance No. PA05/000501
Conforms to BR Specification 97/633/01
Scientifics Approved

USAGE PRECAUTIONS

Avoid contact with skin and eyes.

STORAGE PRECAUTIONS

Store at moderate temperatures in dry, well-ventilated area.

HEALTH AND SAFETY

Health and Safety Data sheet available separately.
